Here is the **Full Inventory Health Report** generated by the Analyst Agent:

📦 Inventory Health Report

Item	Stock (Units)	Status
----- ----- -----		
🖱 Keyboard	200	✅ OPTIMAL
💻 Laptop	50	⚠ WARNING
🖥 Monitor	75	⚠ WARNING

📝 Summary & Recommendations:

- **Keyboard (200 units)** – Stock is healthy and well above the reorder threshold. No action needed.
- **Laptop (50 units)** – Stock is **below the reorder threshold (100 units)**. A reorder is recommended promptly to avoid stockouts.
- **Monitor (75 units)** – Stock is **below the reorder threshold (100 units)**. A reorder is also recommended to maintain adequate supply.

🔔 Action Required:

Please initiate procurement orders for **Laptops** and **Monitors** as soon as possible to replenish stock levels.

Would you like me to check specific order statuses, query individual items, or take any further action?
